

CHIMPANZEEES

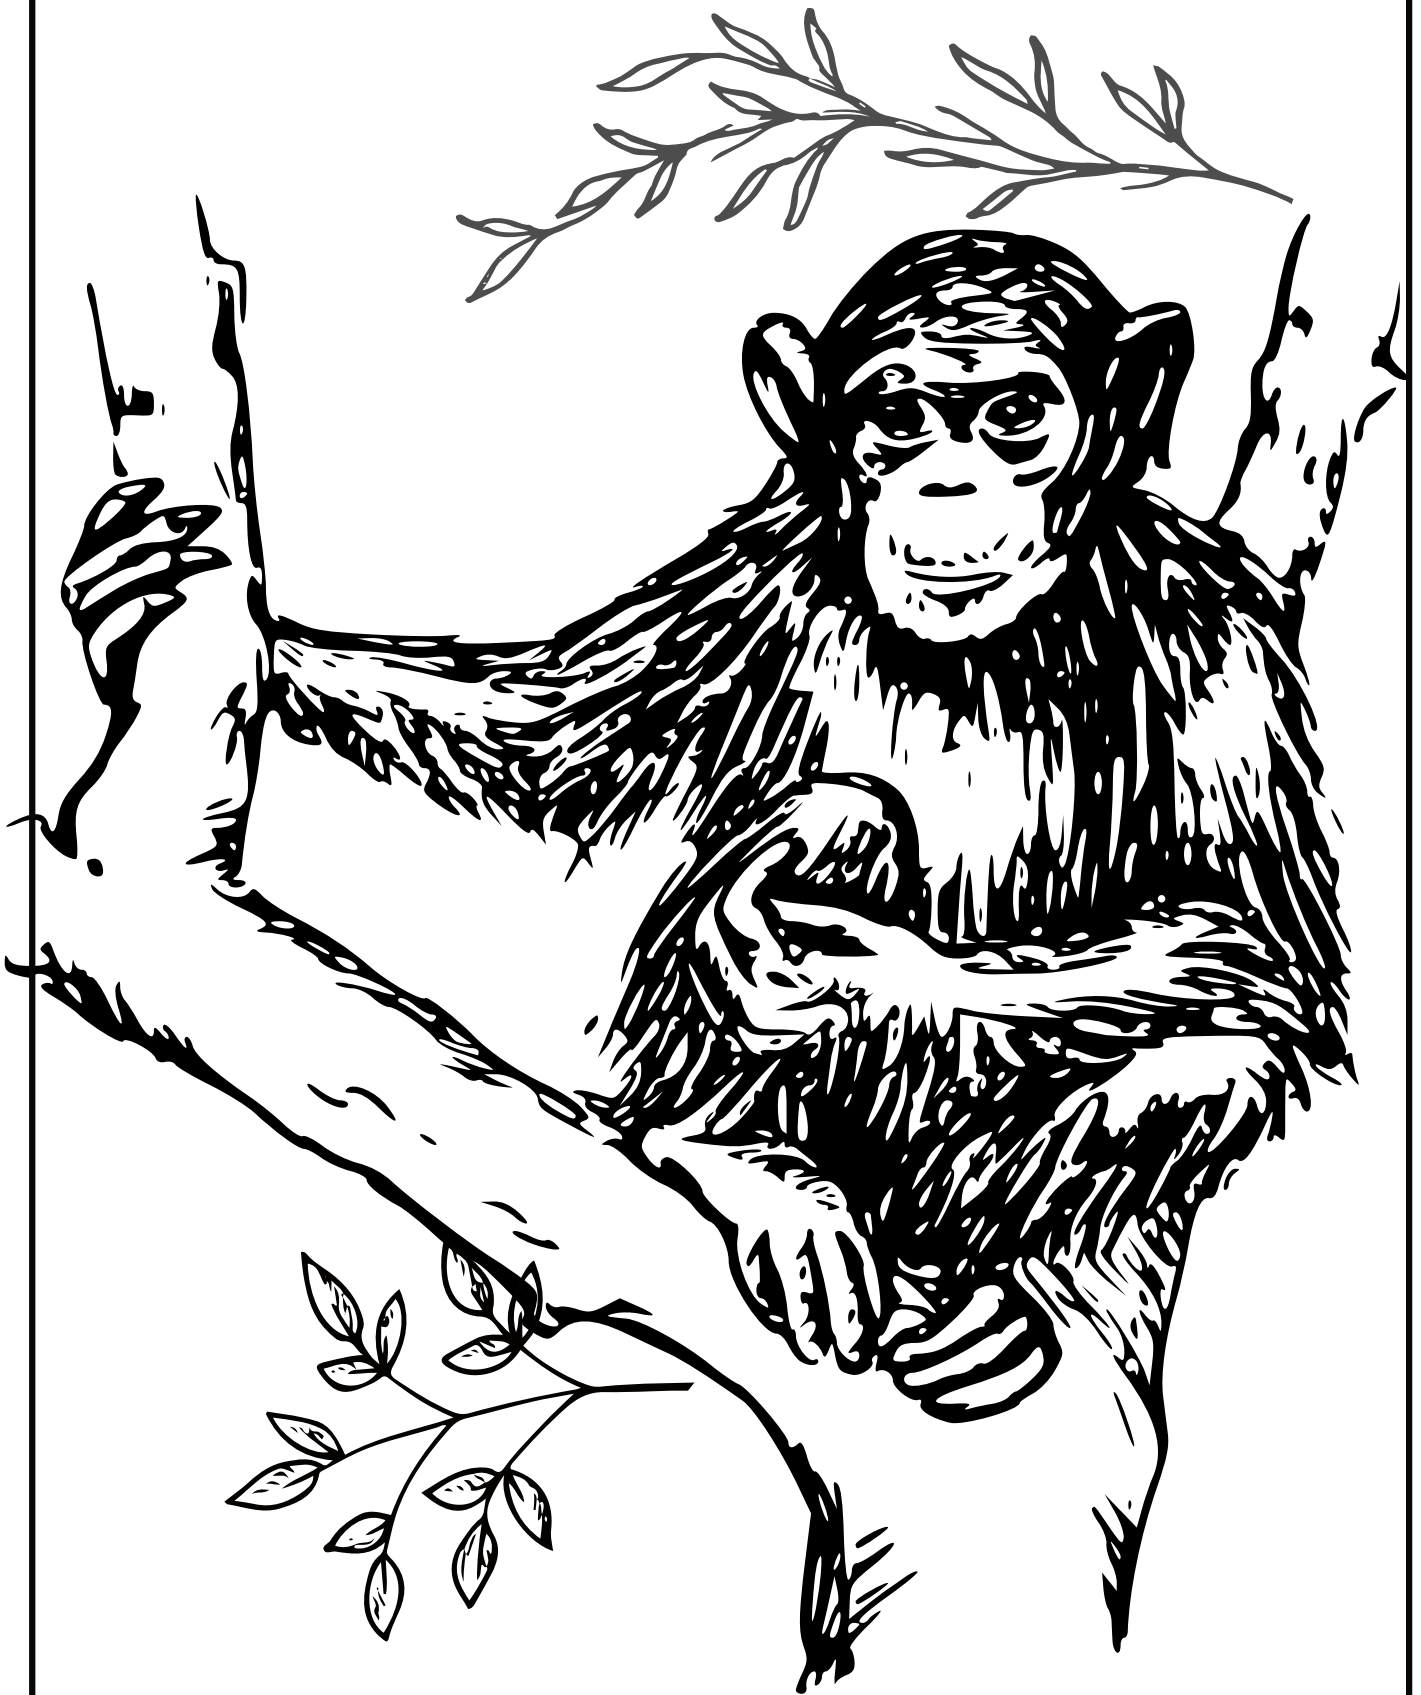

Live in the Rainforest and Grass Savannah

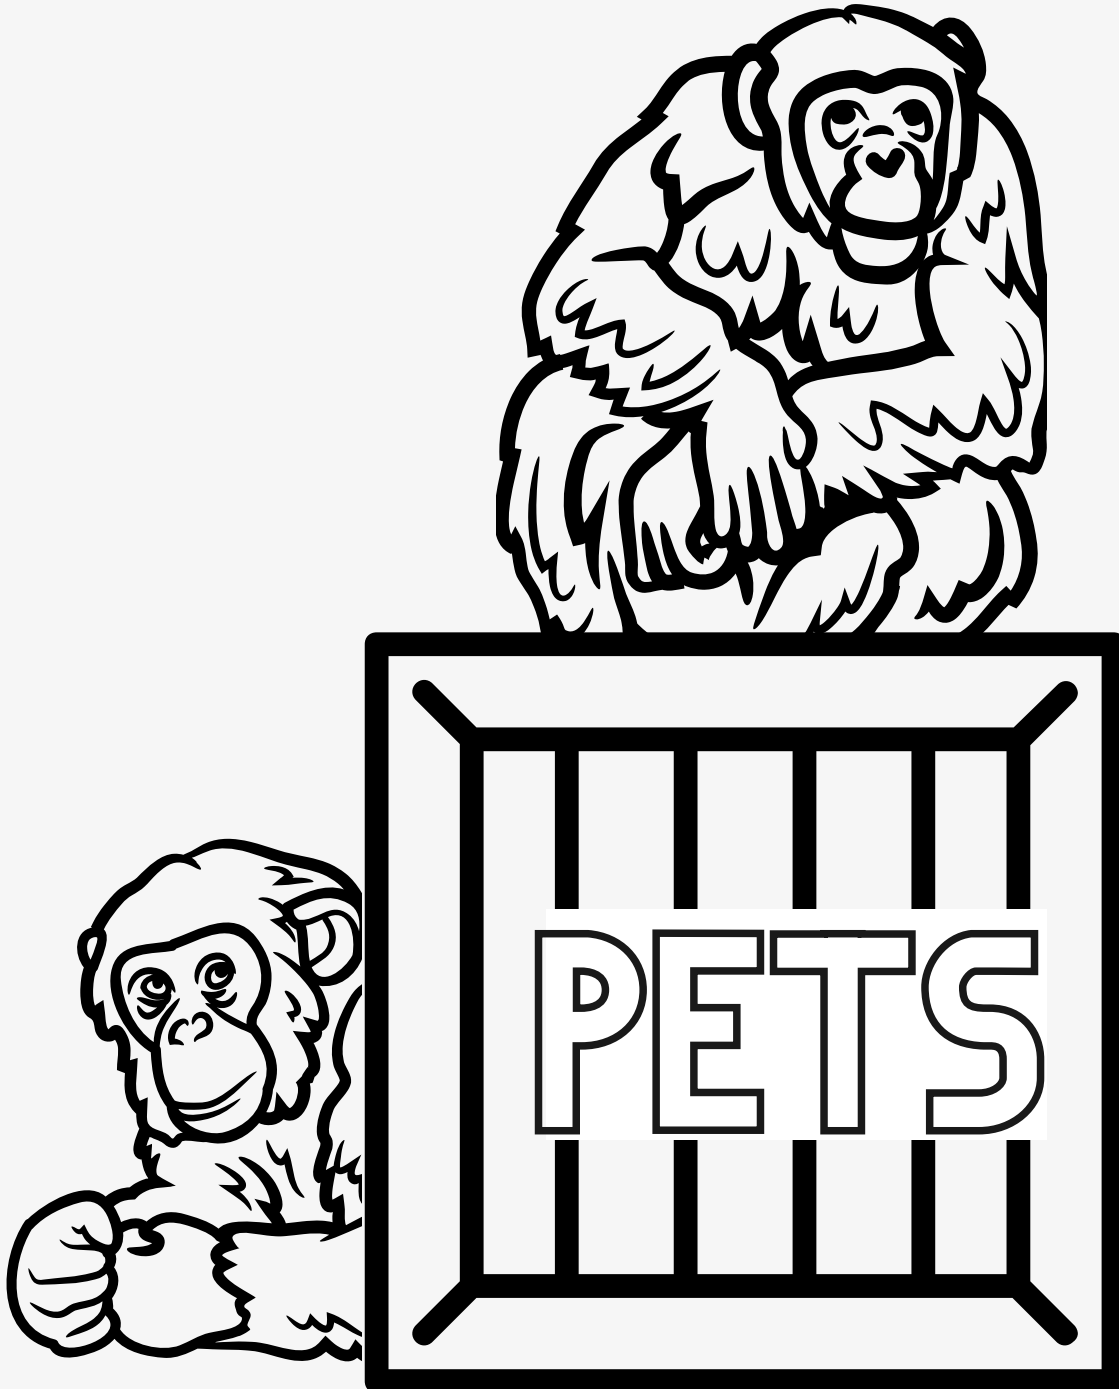

This is where they find their food.

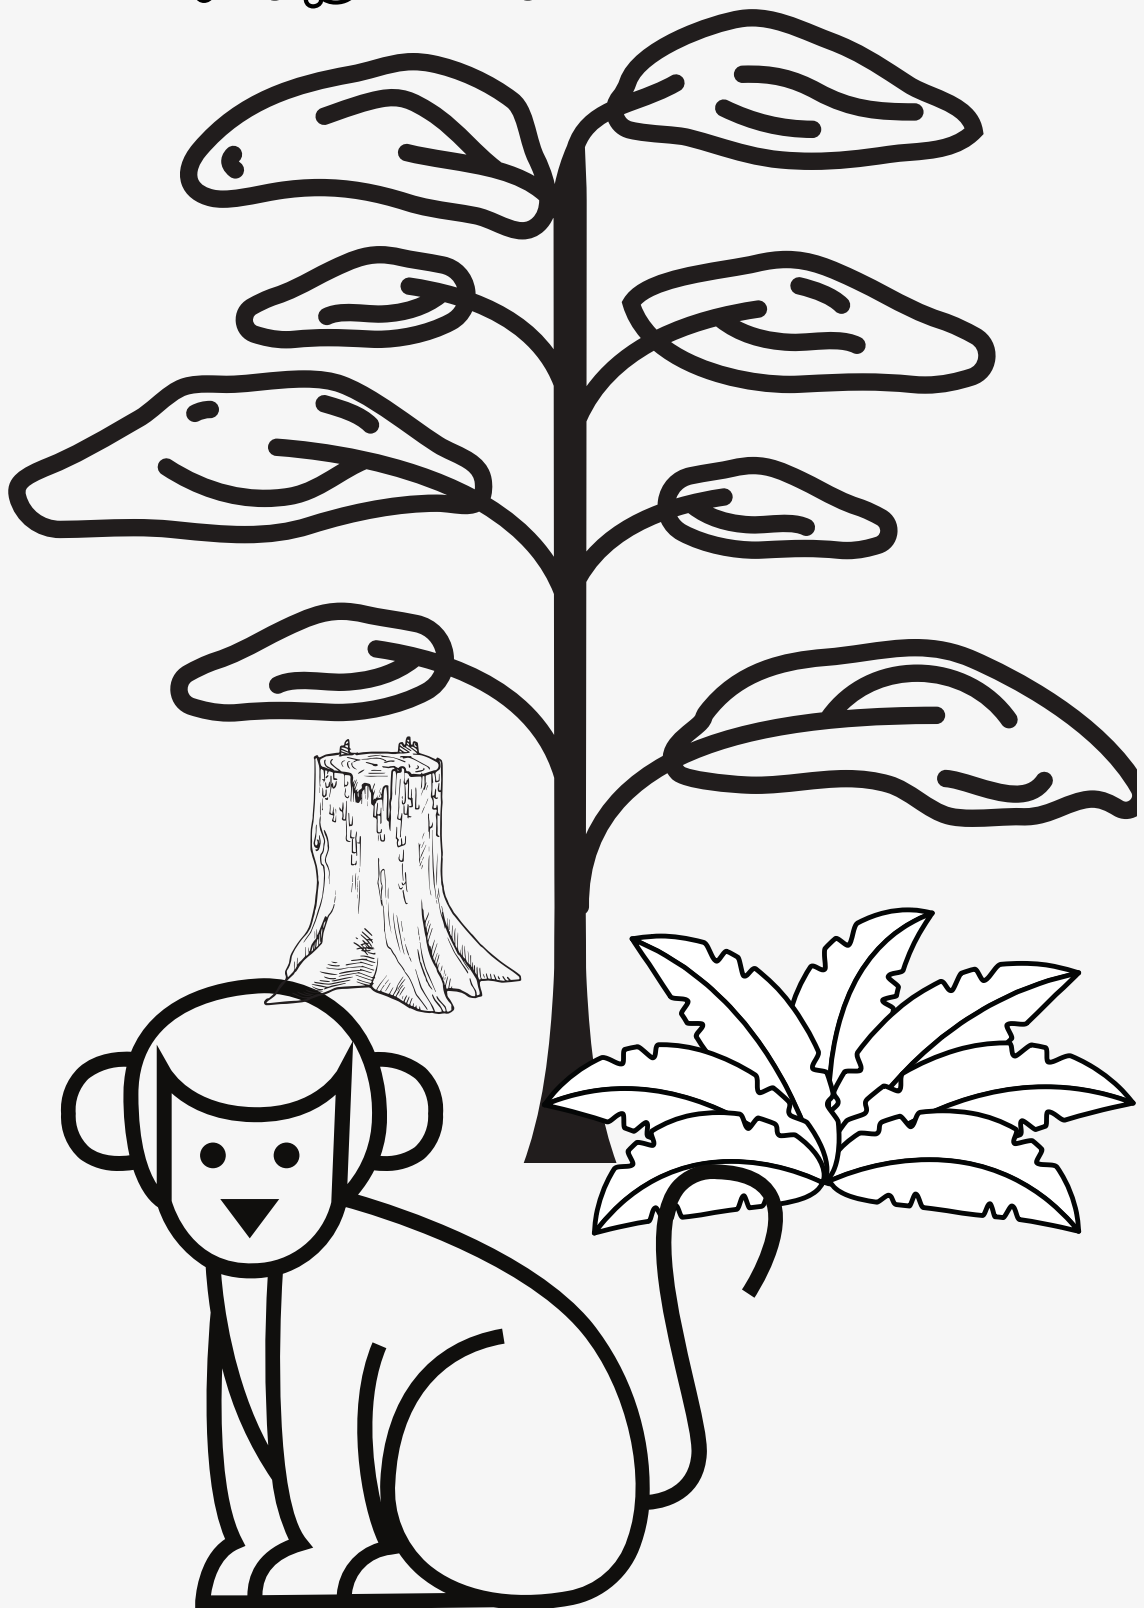

But the forest and savannah are disappearing
and so are the chimpanzees and lots of other
animals.

Animal Poaching

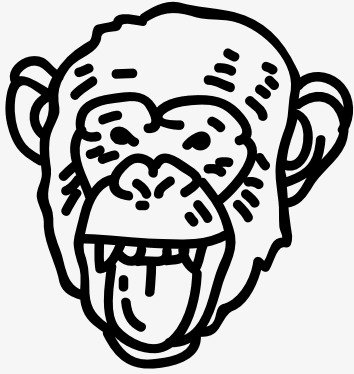

Animal poaching is when someone illegally hunts or takes an animal from its habitat. A lot of people capture chimpanzees for the pet trade or for the meat. These are two reasons they are disappearing.

Habitat Loss

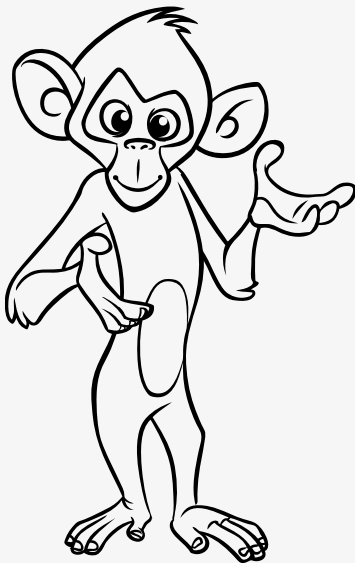

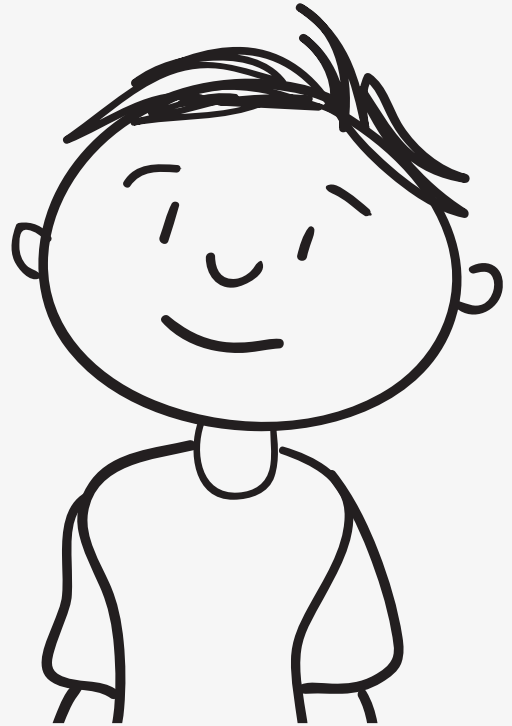

Habitat Loss is another reason
